Hotel Reservation Deadline – December 18, 2019

Conference Registration Deadline – December 20, 2019

Building upon last year's topic of the future of the dairy veterinarian, this year there will be an in-depth discussion of new opportunities for calf health consulting on both dairy farms and feedlots. Dr. Terri Ollivett will be demonstrating how you can incorporate lung ultrasound into your practice as well as calf health scoring and recording. Dr. Kent Fenton will be discussing health, management, and necropsy of high risk calves on large ranches. There will be an additional discussion surrounding how value can be demonstrated by implant consulting on feedlots.

## Meeting Location & Cost

➔ Marriott Columbus University Area  
3100 Olentangy River Road, Columbus OH  
Hotel must be reserved by 12/18 by calling (614) 447-9777  
or reserve online at <https://tinyurl.com/BookODVRoom>  
Be sure to mention your affiliation with the  
**Ohio Dairy Veterinarians** to reserve the room rate of \$135.

➔ The cost is **\$299**. Veterinary students admitted free.

Register online or mail your registration and payment by 12/20 to secure your enrollment, handouts, and all meals.  
\$50 late fee for registration after 12/20.

# Speakers

## **Mike Brown, PhD, PAS**

Mike Brown joined Elanco 3 years ago as a beef cattle technical consultant, focusing primarily on cattle feeding customers. His responsibilities include planning and monitoring research of approved products, data analytics of Benchmark data, development of technical and training materials, and direct in-field support for sales reps.

Mike was born and raised on a crop and livestock operation in South Dakota, and completed a BS in animal science at SDSU. After 2 years at a feedyard in Nebraska, he pursued graduate school and completed his MS and PhD degrees at NMSU in ruminant nutrition. Mike accepted a 75% research:25% teaching faculty position at West Texas A&M University after graduate school and continued in that role for 13 years. His research program focused on applied nutrition and management of feedlot cattle. The program was supported by extramural funding in excess of \$2,000,000 and he served as major advisor/committee chair of 18 MS and PhD students. Mike then oversaw technical services of trace mineral products at Global Animal Products for Australia, Brazil, South Africa, and the US for 3 years before joining Elanco.

Mike currently has divided allegiance to Texas Tech and Baylor; his oldest daughter of two is studying human nutrition and dietetics at TTU and his youngest daughter is studying biochemistry at Baylor with aspirations of subsequent medical school.

## **R. Kent Fenton, DVM**

Dr. R. Kent Fenton grew up just north of Calgary, Alberta, which is in the beef cattle country of western Canada. Kent attended the Western College of Veterinary Medicine in Saskatoon, Saskatchewan, graduating with his DVM in 1998. He worked for 3 years in mixed animal practices in Manitoba and central Alberta, before joining Feedlot Health Management Services Ltd. in Okotoks, Alberta, in 2001. Kent is a partner in the consulting business and works as a Professional Services Veterinarian within the Animal Health Team. Currently his work focuses on providing service to calf ranches and feedlots in Canada, the United States and Mexico. When not working Kent spends as much time as possible in the outdoors with his family – son Ben (6 years), daughter Sophie (8 years) and wife Lise.

## **Theresa Ollivett, DVM, PhD, DACVIM (Large Animal)**

Dr. Ollivett is currently a veterinary epidemiologist and board certified large animal internist. After graduating from the College of Veterinary Medicine at Cornell University in 2004, Dr. Ollivett practiced in a predominantly mixed large animal clinic in northern NY. She returned to Cornell University in 2007 and completed a residency in Large Animal Medicine between 2008-2011. In 2014, she completed her doctoral studies at the University of Guelph by validating portable lung ultrasound as a means of diagnosing respiratory disease in dairy calves. As an assistant professor in the Food Animal Production Medicine section at the School of Veterinary Medicine at UW Madison, Dr. Ollivett continues to advance the academic, veterinary and professional dairy industry's awareness and understanding of lung ultrasound as a means of diagnosing and monitoring cattle health and the varied impacts of interventions on dairy farms. As a member of Food Armor®, Dr. Ollivett assists in the development and extension of a novel hazard analysis and critical control point (HACCP) plan intended to promote food safety and proper drug use by dairy producers, dairy cattle veterinarians, and dairy focused veterinary students.

# Ohio Dairy Veterinarians Meeting

THURSDAY, January 9, 2020 Marriott University Area

1:00	WELCOME	
1:30	Calf lung ultrasound – why bother?	Ollivett
2:45	Calf Ranch Diseases Their Clients? Leukosis Eradication on a Herd Level	Fenton
3:45	Break	
4:15	Calf Ranch Necropsies	Fenton
6:00	Dinner	
after dinner	There's an app for that: Dairyland Initiative Apps and Resources	Ollivett

FRIDAY, January 10, 2020 Marriott University Area

6:30	OSU Breakfast (sponsored by Dept of Veterinary Clinical Sciences)	
7:15	State of OSU CVM	
7:45	OSU Research Reports	
9:00	Sponsor Displays/Intro	
9:30	Fetal Programming and Health Genetics	Fenton
10:30	Break/Sponsor Displays	
11:00	Maternity Coaching, Colostrum, and Total Proteins	Fenton
12:00	Lunch	
2:00	What lung ultrasound – what am I looking at?	Ollivett
3:00	Break/Sponsor Displays	
3:30	Calf lung ultrasound – when should I use it?	Ollivett
4:30	Calfhood disease – recording and utilizing available information	Ollivett
5:30	Social Time with Students	
6:00	Dinner	
6:30	Platinum Sponsor Presentations	
7:00	Student Food Animal Externships	
7:30	Dessert and Networking	

Saturday, January 11, 2020 Marriott University Area

6:30	Breakfast (hotel)	
8:00	Biology and Field Application of Growth Promoting Implants	Brown
9:00	Break	
9:15	Biology and Field Application of Growth Promoting Implants II	Brown
10:30	Annual Business Meeting	Middleton/Mowrer
12:00	Adjourn	

The Ohio Dairy Veterinarians is not affiliated with The Ohio State University, although Veterinary Extension within the OSU Department of Veterinary Preventive Medicine has graciously accepted the responsibility for the program registration and treasury.

Please feel free to copy/forward any of this information and pass it on to colleagues.

REGISTRATION DEADLINE – DECEMBER 20, 2019

## REGISTRATION FORM

# Ohio Dairy Veterinarians Meeting January 9 – 11, 2020

Marriott University Area – 3100 Olentangy River Road  
Columbus OH 43232

Phone: 614-447-9777 • Room Rate \$135.00

FEE: **\$299.00**

(ODV scholarship contribution included)
